WHITNEY TRAN

TECHNICAL & UX WRITER

| LinkedIn: linkedin.com/in/whitneytran whitney.tran@proton.me |
| Portfolio: hwittle.github.io Greater Los Angeles Area, USA |

PROFILE

Technical writer and UX writer with 3+ years of experience creating clear, user-centered documentation and product content across print, digital, and in-product formats. Skilled in translating complex technical concepts for diverse audiences, from end users to cross-functional product and engineering teams. UX Writing Certification from Uxcel, open source documentation contributor, and active portfolio featuring API documentation, error state design, push notification copy, and content audit work.

WORK EXPERIENCE

Epson America Inc. – **Los Alamitos, California** | TECHNICAL EDITOR June 2022 – September 2025

- Owned end-to-end documentation for 4 commercial and business products, including user guides, FAQs, warranties, and guided help content, with review and approval from team members and management before publication
- Wrote and edited print and digital documentation across two specialized teams, adapting parent company international English source documents for North American markets
- Collaborated with product managers and subject matter experts to ensure technical accuracy and legal compliance, including adapting content to meet North American regulatory standards
- Authored and edited HTML-based FAQ content and guided help experiences prior to CMS upload, analyzing engagement metrics and support escalation data in weekly team reviews to identify high-priority content for revision
- Maintained and contributed to a comprehensive company style guide to ensure consistency across all documentation
- Reviewed and provided editorial feedback on instructional video content for technical accuracy, completeness, and pacing, collaborating with a dedicated video production team to ensure content met documentation standards

Coding Mind Academy – **Irvine, California** | LEAD INSTRUCTOR March 2019 – May 2022

- Co-developed curricula, projects, and interactive assignments for Pre-K through High School students, tailoring structure and layout to each age group
- Authored 100+ pages of e-learning curricula adopted by 100+ instructors, streamlining onboarding and consistency
- Maintained Markdown-based course materials in GitHub repositories using a docs-as-code workflow, ensuring content remained current, accessible, and consistently structured across instructor teams

PROJECTS & OPEN SOURCE

User Profile Template – The Good Docs Project | OPEN SOURCE CONTRIBUTOR September 2026 – Present

- Developing a user profile template for the User-focused core pack, collaborating with the Templates team through issue-based, Git workflows and community review

Steam Web API Documentation – Personal Project | TECHNICAL WRITER July 2026 – Present

- Wrote unofficial reference documentation for 5 Steam Web API endpoints, grounding parameter descriptions, response examples (JSON, XML, VDF), and notes on undocumented fields in real responses captured with Postman
- Built and deployed the documentation site in a docs-as-code workflow using MkDocs Material, YAML configuration, and GitHub Actions, with a consistent page template and terminology across endpoints

EDUCATION & CERTIFICATIONS

UX Writing Certification | Uxcel Online Course | June 2026

B.S. – **Computer Game Science** | University of California, Irvine Irvine, California | 2013 – 2018
